## Knud Jansen Lecture - David Condie

The 2007 Knud Jansen lecture will be presented by Mr. David Condie.

David Condie is a Clinical Engineer from Scotland. For many years he was the Manager of the Rehabilitation Engineering Services for NHS Tayside based in Dundee and an Honorary Senior Lecturer in the Department of Orthopaedic and Trauma Surgery of the University of Dundee. His principal clinical, scientific and educational interest throughout this period has been orthotics and he has published extensively on various aspects of that topic. He has additionally contributed on a regular basis to the teaching programme of the National Centre for Training and Education in Prosthetics and Orthotics at the University of Strathclyde as a visiting lecturer.

David Condie is a Fellow of ISPO and a past Chairman of ISPO-UKNMS. He was an Executive Board member from 1992 until 1998, Secretary General of the ISPO 2001 World Congress in Glasgow, and is currently the Society's Task Officer for Instructional Courses on the Management of Cerebral Palsy. Mr. Condie is also active in the standards field as the Chairman of the British Standards Institute, Prosthetics and Orthotics Committee and Convener of an International Standards Organisation Working Group (Prosthetics and Orthotics Technical Committee).

### **Moving the Profession - Dan Blocka**

Dan Blocka is the Director and Professor of Prosthetic and Orthotic Programs at George Brown College in Toronto, Canada, the principal educational program in the field in Canada. He is the chairman of the Education Committee of ISPO and will become the President of the Society at the World Congress in Vancouver. He is a Certified Orthotist and provides clinical services through his company, Clinical Orthotic Consultants.

### **Moving Beyond Disability - Jan Geertzen**

Jan Geertzen is a physiatrist and a professor in Rehabilitation Medicine at the Centre for Rehabilitation, University Medical Centre Groningen, the Netherlands. He is the standing Chairman of the Scientific Committee of ISPO and will become President-elect of the Society at the World Congress in Vancouver.

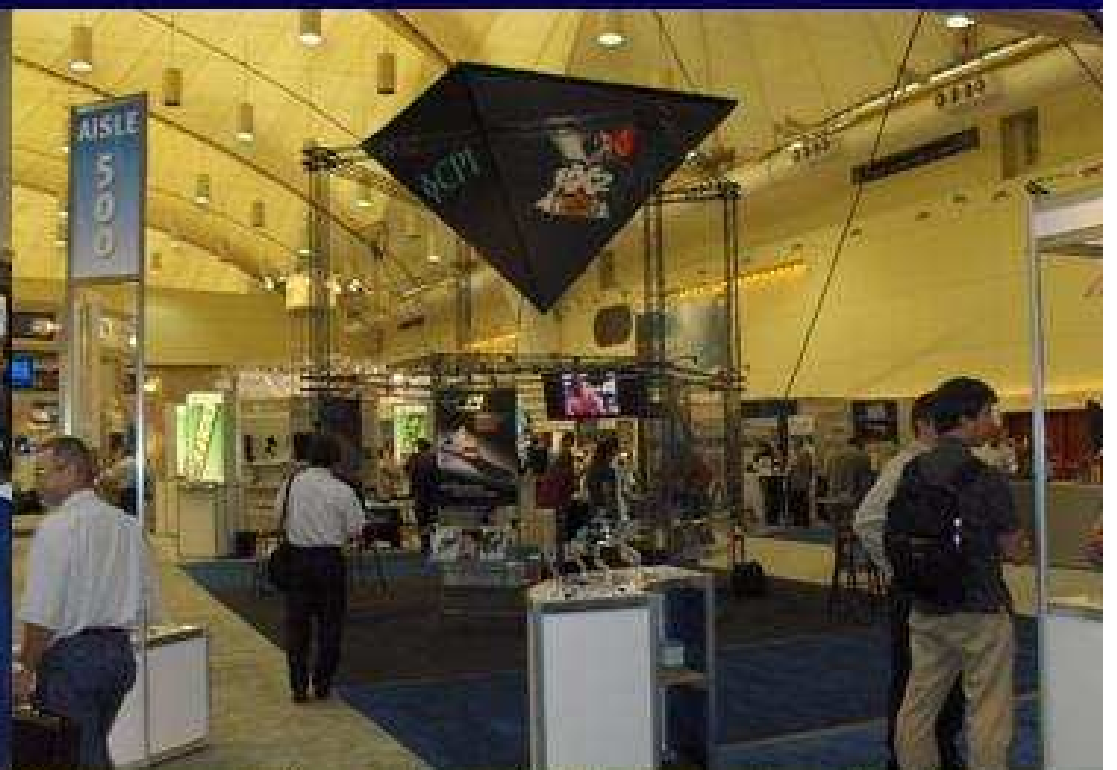

## **Moving Swifter, Higher, Stronger - Todd Kuiken**

Dr. Todd Kuiken works to help people with disabilities achieve these objectives. Dr. Kuiken is the Director of the Neural Engineering Center for Artificial Limbs at the Rehabilitation Institute of Chicago. The Center focuses on improving the function of artificial arms using neural integration techniques. Dr. Kuiken's research interests include improving the care of amputees, the control of artificial limbs, the study of bioelectromagnetics, prosthetic design & development, and wheelchair mobility systems. He is an Associate Professor in the Department of Physical Medicine and Rehabilitation and the Associate Dean for Academic Affairs representing the Rehabilitation Institute of Chicago in Northwestern University's Feinberg School of Medicine. Dr. Kuiken received a B.S. degree in biomedical engineering from Duke University, a Ph.D. in biomedical engineering from Northwestern University, and his M.D. from Northwestern University Medical School. He was the Frankel Research Fellow at the Rehabilitation Institute of Chicago in 1992.

**Köszönöm a figyelmet !**
